

⑥ 卷

【P.10~13】

When they came into the room, his wife served cake and tea for the bears.

It looked as if they knew that the bears would come there.

The three bears had cake and tea.

S : "Now, it's about time for you to go home."

B : "Oh, already? OK, we'll go."

Then the three bears got back in the sleigh and flew into the sky.

B : "Good bye!"

When they looked back, the old man in red was waving his hand with his wife.

B:"He was Santa! We met the real Santa Clause!"

【P.36~37】

The sun is in the center of the solar system.

And eight planets move around the Sun.

The Earth is the third planet closest to the sun.

The rotating Earth goes around the Sun once a year.

You can see the moon and many stars at night in the sky.

The moon goes around the Earth about every 4 weeks.

You can see part of the moon lit up by the Sun.

【P.38~39】

Space is extra huge beyond our imagination.

Nobody knows how large space is still.

But the Space Age will come for sure.

You may try spaceflight as an astronaut,

or space travel by spaceship.

I have visited the space museum before.

There I found some space food, and had space ice cream.

To tell the truth, it was not icy.

I wish I could have frozen ice cream in space.
